

himself, would be set down by the friends and allies of the French war party in this country as a base, truckling, and cowardly submission to France. (Hear, hear.) But he only wished that the war party was as little to be regarded in France as fortunately it was in this country. (Hear, hear.)

EUROPEAN PROJECTS OF TERRITORIAL AGGRANDISEMENT.—AND MARITIME CONTROL. (Extract from the European correspondence of the *National Intelligencer*.)—The radical London Examiner, (7th inst.) advises a partition of all the Mahomedan countries contiguous to Europe and around the Mediterranean, between Great Britain, Russia, and France, as the only alternative for war. The Morning Chronicle cannot see how a rupture is to be avoided. The United States are a little interested and relied on in its new *casus belli*.

"We regret to say that the differences between France and England are not casual ones; but that the French have assumed with respect to us a certain attitude, out of which causes of strife must arise. For instance, here have deputies arrived from Honduras to Nicaragua, states of the *quandam* Republic of Guatemala, which consider themselves independent. We had reason to complain of Nicaragua, and we blockaded its port. What is the revenge? They send to Europe and demand the protectorate of France.—They want to be to the French King what Tahiti is. Louis Philippe is to have the external sovereignty of the chief countries which form the isthmus of Panama, and to be lord of its waters, whether in the Pacific or in the Caribbean sea. M. Guizot is said to have replied to M. Casteillon, the envoy, that "he could not refuse, *mais qu'il fallait aller doucement*." Oh yes, the French will *aller doucement*, go softly in Morocco, as well as Nicaragua; softly enough not to disturb the sleep of such Ministers as Lord Aberdeen. But all this softness does not prevent a pretty quarrel at the end. To be sure, the Nicaragua business is not much to be feared, for Jonathan is interested in it as much as we are; and Mr. Tyler, who breathes fire and flame at even the commercial intervention of Europe in Texas, cannot tolerate French protectorate in American seas."

The receipts of customs at the port of New York, for the first five months of 1844, exceed \$9,500,000, against some \$4,000,000 in each of the two preceding years. The total collections at New York alone, during 1844, will pretty certainly exceed \$20,000,000, being considerably more than the entire revenue of the government for the last four years. The entire revenue of this year will almost certainly exceed \$40,000,000, of which over \$15,000,000 may be devoted to the reduction of the public debt, which amounted to \$25,000,000 on the first day of January last.

The Wesleyan methodists of the Bingham Circuit, have erected a moveable wooden meeting-house upon wheels, capable of seating 120 persons, at a cost of about £60, for the accommodation of several villages, where no site can be obtained.

DEALER IN FOREIGN MERCHANDISE AND CALIFORNIA PRODUCE.

WHALE-SHIPS supplied with PROVISIONS on the most reasonable terms of the country, for Bills on the United States, when the captain may not have such goods as the government will permit him to sell.

The Commerce of California is increasing; the Farmers preparing to furnish Provisions in more abundance; the Port Charges on a whale-ship but Four Dollars; Wood and Water can be obtained with more ease than in former years, as wells are being built near the beach to conduct the water to the boats. The climate is one of the best known, it being very uncommon for a ship to go to sea with sick men. Ships can be recruited, and provisions taken on board, in twelve or fifteen days—according to the season; and Letters are often sent to the United States in sixty to sixty-five days, via Mazatlan and Vera Cruz. s21
